Congressman King Thanks Voters for Vote Support

Congressman Cecil R. King who was again elected by the people of the 17th District to represent them in Washington for the next two years, yesterday expressed renewed confidence in the future welfare of the nation and this area under the new Democratic leadership.

In a post-election statement to the Torrance HERALD, Congressman King also said:

"The people of our district have again spoken. As a result, I hope we will move forward from here, not as divided partisans, but as united Americans, devoted to a greater faith in democracy and a unity of purpose toward a world of peace."

"To the many who have worked so hard in my behalf, giving so freely of their time and energy, my sincerest appreciation and my pledge to them, and all citizens of the district, is a continuance of my very best representation for them in Congress during the next two years."

Congressman King defeated his Republican opponent, Robert Finch, in last Tuesday's election by a larger margin than he did in 1952, in spite of a smaller turnout of voters, a lead of 34,843 votes. King's total this year was 99,128 as compared to Finch's 64,285. In 1952 King defeated Finch by 22,832. This year the total vote in the Congressional race was 163,413, while two years ago it was 203,686.

Speeders Hit By CHP Boss

Horse and buggy traffic enforcement is gone forever in California.

"In keeping with today's quickened pace in life and travel we have made a determined effort to equip our California Highway Patrol Officers with the best modern equipment," declared Ross R. McDonald, Deputy Commissioner of the Patrol.

"The Patrol's fleet of modern cars equipped with super-powered engines and three-way radios make it very unwise for speeders to attempt to escape detection and arrest," McDonald added.

To emphasize this point he cited September arrest records showing 6403 speed arrests for drivers traveling faster than 70 miles per hour. This number represents more than one-third of the total of 19,001 speed citations issued by the Patrol during that period.

There were 34 arrests for vehicles traveling faster than 95 miles per hour, 56 arrests at speeds between 90 and 95, and 160 arrests for speeds of 85 to 89 miles per hour.

One hundred octane gasoline is not obtained directly from crude oil but is the result of a series of distillations and processes.

TO SUPPORT IKE

"I will return to Washington and under the new Democratic leadership in Congress shall enact constructive legislation toward peace, prosperity, a strong national defense, and restore some equities to the tax laws. As I did in the last session of Congress, I will continue to support President Eisenhower's program whenever it is in the best interest of the majority of the people."

He shall appreciate the continued guidance of the people of the district on all future occasions.

Somebody Makes Much Ado to Get Nothing

Somebody goes to a lot of trouble breaking into his store if they don't want anything, Leonard Walker, of Leonard's Barbecue, 23815 S. Main St., told sheriff's deputies Thursday.

In prying open his back door, someone broke into his business without taking anything for the third time in recent weeks, he said.

TAKE IT EASY

UNION PACIFIC RAILROAD On Your Trip **EAST!**

No hi-way hazards, weather worries or when-to-eat-and-sleep problems—just carefree hours of restful relaxation, congenial companionship, fine food and gracious service that are a tradition on the Union Pacific.
